FIBER FRIENDS
4-7 PM

In April, the library hosted a workshop introducing patrons to 3D printing. Some of our youngest visitors jumped at the opportunity to use the printer and create fun, unique items. They were excited to learn new skills and bring their ideas to life.

The 3D printer, along with other creative machines, is available for community use in the Makerspace Studio on the second floor of the library.

Materials provided in the Makerspace are reasonably priced to help cover the cost of supplies. See the following page for a list of popular Makerspace activities, and schedule an appointment to create something of your own.

- Screen print on your own cotton items
- Like tote bags or T-shirts
- Or print on cardstock to make art
- \$8 to cut a design into a screen
- Or by donation to use ink only

SCREEN PRINTING

- Print toys, fidgets, or tools
- Create your own in Tinkercad
- Or download .stl files from Thingiverse.com
- Priced by the amount of filament used per print
- Around 5 cents per meter

3D PRINTING

MAKERSPACE STUDIO

SOLVE THIS RIDDLE, IF YOU DARE:

I CANNOT BE TAKEN FROM YOU,
YET I CAN BE GIVEN FREELY.
THE MORE PEOPLE WHO HAVE ME,
THE STRONGER A COMMUNITY WILL BE.

A = V

ANSWER:

N U Z E F H I Y R

SOLVE THIS RIDDLE, IF YOU DARE:

I'M LIGHT AS A FEATHER, YET EVEN THE
STRONGEST PERSON CAN'T HOLD ME FOR LONG.
WHAT AM I?

A = R

ANSWER:

K A I N D W

Crack the Code!

A STEM Challenge from Huntingdon County Library

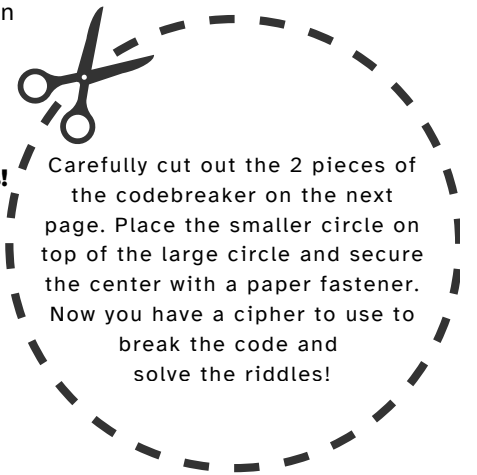

Riddles and secret codes are more than just fun, they help your brain grow! When you decode a message, you use logic, experimentation, and pattern-mapping skills to solve a problem, just like scientists and engineers.

Your mission is to use The Codex Cipher to solve these riddles!

- Read the riddle.
- Use the Codex Cipher key.
- Decode the message.
- Discover the answer!
- Think you can crack it?

Great codebreakers never give up!

Carefully cut out the 2 pieces of the codebreaker on the next page. Place the smaller circle on top of the large circle and secure the center with a paper fastener. Now you have a cipher to use to break the code and solve the riddles!

SOLVE THIS RIDDLE, IF YOU DARE:

WHAT INVENTION LETS YOU
LOOK RIGHT THROUGH A WALL?

A = M

ANSWER:

K Q X M D K

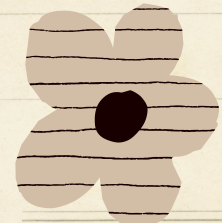

Join us for our next craft night!

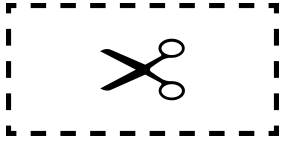

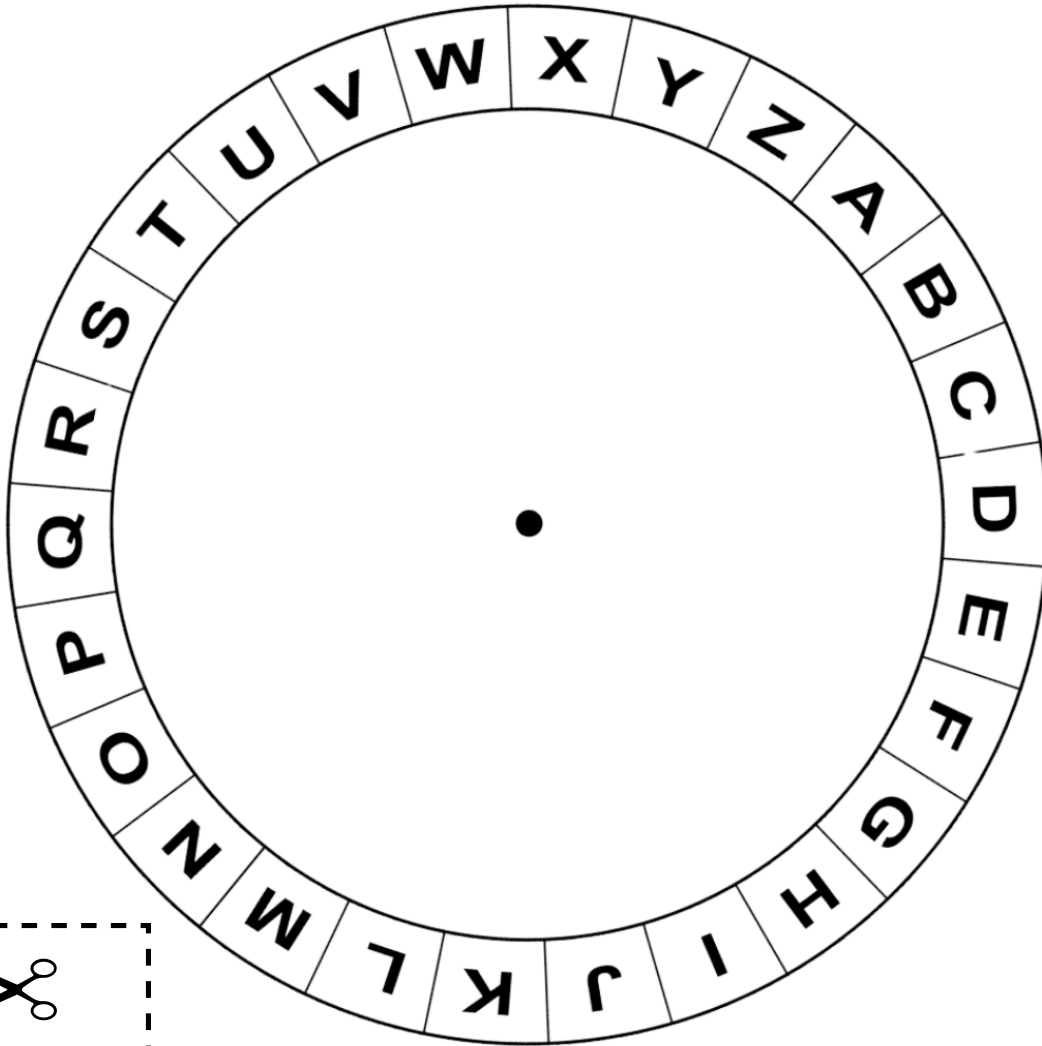

Sign up at the circulation desk to attend our next creative evening.

June 11th at 6pm
Make flags & stars from popsicle sticks

July 9th at 6pm
Create hand held fans made out out paper

August 13th
Make sunflower wreaths out of coffee filters & embroidery hoops

Carefully cut out the Code Breaker.
Ask a grownup for help, if you need it!
